The Real Reservation System

ABSTRACT

This project presents a web-based Reservation Portal designed to determine eligible government reservation schemes based on an individual's verified income details. The system follows a secure multi-step registration process that includes identity validation, document upload, CAPTCHA verification, and income-based categorization. A user-friendly interface with accessibility features such as dark mode, high-contrast mode, keyboard navigation, and audio CAPTCHA ensures inclusivity. Submitted data is securely stored on the client side and categorized into predefined income slabs to display relevant welfare schemes. An integrated admin dashboard enables authorized administrators to manage records, perform searches, edit or delete entries, export data, and monitor activity logs. Overall, the portal aims to promote transparency, usability, and efficiency in reservation eligibility assessment.

Technologies used: HTML5 , CSS3 , JavaScript (ES6) , jQuery , Web Storage API (localStorage) , Canvas API , Web Speech API , Google Fonts

RESULTS:

The screenshot shows the 'REAL RESERVATION - GOV PORTAL' header with a logo and navigation links for 'High Contrast', 'Dark Mode', and 'Admin'. Below the header, the 'Registration' section is titled 'Step 1 of 3'. The main content area is 'Register - Multi-step', specifically 'Step 1 - Identity & Document'. It contains input fields for 'Mobile number' (with a sample number 9898989898) and 'Aadhaar number' (with a sample number 28867702111). There is a section for 'Upload certificate (drag & drop or click)' with a placeholder image and instructions: 'Drag & drop an image or PDF here -- or click to choose. Supported: .JPG, PNG, PDF (viewer may depend on browser)'.

The screenshot shows the 'Registration' section titled 'Step 2 of 3'. The main content area is 'Register - Multi-step', specifically 'Step 2 - Personal & Certificate'. It contains input fields for 'Full name' (with a sample name 'Ravi') and 'Certificate text (paste if you like)' (with a placeholder 'Paste certificate text here...'). There is a 'Manual income entry required' checkbox and a 'Back' button. Below this is an 'Annual income (₹)' input field with a sample value '899880' and a 'Next' button.

The screenshot shows the 'CAPTCHA' section with a visual puzzle of characters 'D Y 7 Y 2 E' and a 'Verify & Continue' button. Below this is the 'Eligible Schemes' section, which lists several government schemes: 'Startup India Seed Fund', 'MUDRA Loans', 'Stand-Up India', 'Digital India Internships', and 'TIDE Grants'. Each scheme has a corresponding input field.
